S: STATISTICS AUSTRIA, Regional Accounts. Compiled on 4 December 2020. - Consistent with National Accounts dated September 2020. - Concept: ESA 2010. - No compensation of any rounding differences. - 1) The Gross Regional Product (GRP) is the regional counterpart of the Gross Domestic Product. - 2) Total employment comprises employees and self-employed. Domestic geographic concept: regional classification is made according to the place of work. - 3) According to the NUTS classification (hierarchically structured, standardised territorial classification used for compiling the European Union's regional statistics) NUTS 3 regions in Austria correspond to groups of political districts, in part judicial districts. - 4) Annual average. - 5) 'Extra-Regio' refers to parts of the economic territory not directly allocable to a region (i.e. embassies abroad).
